Sir:

Applicants submit herewith 38 patents, publications and other information [some of which are enclosed herewith and all of which are listed on the enclosed Form PTO-1449 (modified)] of which they are aware, which they believe may be material to the examination of this application and in respect of which there may be a duty to disclose in accordance with 37 CFR § 1.56.

This Information Disclosure Statement is being submitted in conjunction with a Request for Continued Examination.

A copy of each of the items on PTO-1449 (modified) is supplied herewith, except for issued United States patents and published United States patent applications.

A concise explanation of relevance of the items listed on form PTO-1449 (modified) is hereby given for the only non-English language listed item: cite no. 32, the **DE 100 21 686 A1**

reference, discusses a method for reducing the distribution of computer viruses in an e-mail network.

The Examiner is reminded that a "concise explanation of the relevance" of the submitted items "may be nothing more than identification of the particular figure or paragraph of the patent or publication which has some relation to the claimed invention," MPEP § 609.

While the information and references disclosed in this Information Disclosure Statement may be "material" pursuant to 37 CFR § 1.56, submission of this IDS is not intended to constitute an admission that any patent, publication or other information referred to herein is "prior art" for this invention, unless specifically designated as such.

In accordance with 37 CFR § 1.97(g), the filing of this Information Disclosure Statement shall not be construed to mean that a search has been made or that no other material information as defined in 37 CFR § 1.56(a) exists. It is submitted that this Information Disclosure Statement complies with 37 CFR § 1.98 and MPEP § 609, and the Examiner is respectfully requested to consider the listed references.

Respectfully submitted,
